

Mineral Processing Plant / Smelter

Indonesia is known as a resource-rich country. With current government regulations, it has become more attractive to establish mineral processing facilities locally. A smelter license, or technically, a Mining Business License for Specialized Operation and Production (IUP-OPK) - Processing & Refining may be obtained for an established mining company with concessions under license for Operation and Production (IUP-OP), or a new company not currently holding an IUP-OP.

Deliverables

Mining Business License for Specialized Operation and Production (IUP-OPK) - Processing & Refining

Documents required

- a) Application for IUP OPK Processing and Refining
- b) Articles of Association, with all amendments and approvals, and complete corporate documents of applicant
